ADMISSIONS OPEN • SUMMER / WINTER 2026 BATCH

INDUSTRIAL INTERNSHIP & CAREER ACCELERATOR

A rigorous, production-grade virtual internship program designed to transform engineering, BCA/MCA, and tech students into high-impact software developers through real-world capstone deployments.

Academic Credit
Fully compliant with AICTE & University curriculum. Valid for semester submissions.

Live Codebases
Build real GitHub repositories with Next.js, Python, Flutter, and SQL databases.

QR Verification
Every certificate is backed by an automated 24/7 public recruiter verification engine.

Flexible Schedule
Self-paced task deadlines allow students to study without exam attendance conflicts.

KS

"Our goal at Indrobeams is to completely eradicate fake, hollow certificates. We train students on the exact tools, architectures, and Git workflows modern high-growth tech companies require."

Krishna Singh — Founder & CEO, Indrobeams Technologies

PROGRESSION PIPELINE

How The Program Works: From Enrollment To Job-Ready Portfolio

STAGE 01

Portal Onboarding

Receive student portal credentials, domain assignment, and GitHub repository template within 24 hours of verification.

STAGE 02

Hands-On Build

Develop industry-level milestone tasks using modern tech stacks, live APIs, and database schemas.

STAGE 03

Code Audit & Review

Submit your working code and live deployment URL for automated verification and mentor evaluation.

STAGE 04

Verified Credential

Receive your tamper-proof ISO-aligned Certificate, signed LOR (Pro Track), and recruiter-ready portfolio badge.

Exclusive Study Materials & Developer Kits Provided

Included Free With All Tracks

Architecture Blueprints & Task Guides

Step-by-step PDF task documentation, system architecture flowcharts, and schema entity-relationship diagrams.

GitHub Starter Boilerplates

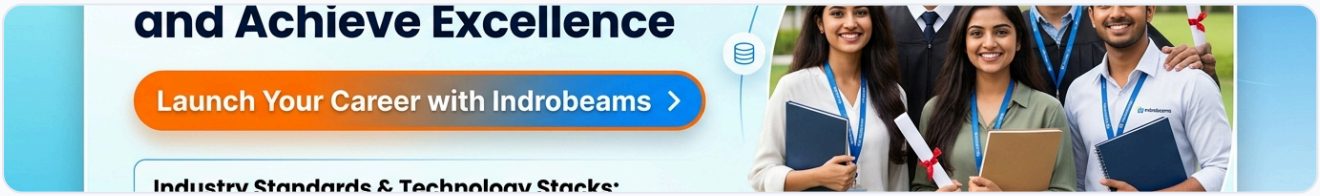

Pre-configured production repositories with TypeScript, Tailwind, ESLint, and CI/CD actions ready to clone and build.

API Sandbox & Postman Collections

Working mock REST APIs, Supabase database schemas, and Figma UI kit design assets for immediate development.

Placement & Resume Accelerator

ATS-optimized project description bullet points, GitHub README formatting templates, and LinkedIn announcement copy.

INDUSTRY DOMAINS

High-Demand Technical Tracks & Milestone Capstones

Full-Stack Web Development

4–12 WEEKS

Architect scalable client-server applications with server-side rendering, secure authentication, and relational databases.

`Next.js 15` `TypeScript` `Tailwind CSS` `Supabase` `PostgreSQL`

CAPSTONE DELIVERABLE
Production Multi-Tenant SaaS App with Auth, Payment Gateway & Live Vercel Deployment.

Data Analytics & Business Intelligence

4–12 WEEKS

Transform complex enterprise datasets into actionable executive insights, automated reporting, and interactive visualizations.

`Python Pandas` `PostgreSQL` `Power BI` `Streamlit` `NumPy`

CAPSTONE DELIVERABLE
Executive Financial KPI & Churn Intelligence Dashboard with real-time cohort analytics.

UI/UX & Digital Product Design

4–8 WEEKS

Conduct user research, construct atomic design systems, and craft hyper-polished interactive mobile and web prototypes.

`Figma` `Design Systems` `Wireframing` `Micro-Animations`

CAPSTONE DELIVERABLE
High-Fidelity FinTech Mobile App Prototype with full clickable design system and user research deck.

Python Engineering & Automation

4–12 WEEKS

Develop high-performance asynchronous microservices, intelligent data scrapers, and automated backend CLI tools.

`Python 3.12` `FastAPI` `AsyncIO` `BeautifulSoup4` `Docker`

CAPSTONE DELIVERABLE
Distributed Multi-Source Scraping Engine & REST Microservice with Swagger documentation.

Mobile Application Engineering

4–12 WEEKS

Engineer sleek, responsive cross-platform native iOS and Android mobile apps with local persistence and cloud sync.

`Flutter` `Dart` `React Native` `Firebase` `REST APIs`

CAPSTONE DELIVERABLE
Offline-First Cloud Task & Team Collaboration App with push notifications and APK release.

Digital Growth & Technical SEO

4–8 WEEKS

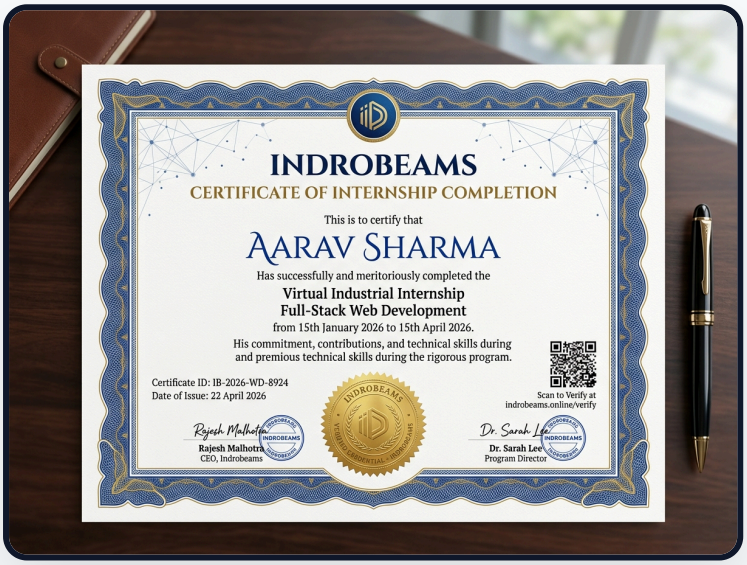

Master organic search engine ranking, AI search optimization (AEO/GEO), conversion funnels, and performance marketing.

`Technical SEO` `Google Analytics 4` `Meta Ads` `AEO/GEO`

CAPSTONE DELIVERABLE
End-to-End Growth Playbook: Organic Content Funnel + Paid Campaign Strategy with ROI models.

CERTIFICATION STANDARD

Tamper-Proof ISO-Aligned Credentials That Recruiters Trust

Unique Permanent ID (e.g., IB-2026-WD-8924)
Permanently registered in our database. Can be verified by hiring managers in under 2 seconds.

Dynamic Scannable QR Code
Printed directly on the certificate. Camera scan immediately loads the live verification ledger.

Founder & Authorized Signatures
Cryptographically watermarked with official seals and executive signatures for academic credibility.

AICTE & College Credit Compatible
Valid for college internship evaluation, NOC submission, and internal Viva credits.

24/7 Automated Public Verification Engine
Anyone (Colleges, HRs, Recruiters, Background Verifiers) can verify your credentials online without phone calls or emails.

LIVE LEDGER AT: https://www.indrobeams.online/verify

Scan to test Live Verification

Official Offer Letter
Issued upon enrollment for submission to your college internship coordinator.

Letter of Recommendation (LOR)
Personalized LOR signed by Founder Krishna Singh for high-performing interns.

LinkedIn 1-Click Integration
Add your verified license and certification directly to your public LinkedIn profile.

PROGRAM PLANS

Choose Your Tier: Affordable, Flexible, Zero Hidden Charges

Starter Track

Self-Paced Academic Completion

₹99 / one-time processing

- ✓ 1 Core Milestone Project
- ✓ Verified Certificate of Completion
- ✓ Permanent QR Verification Link
- ✓ Self-Paced 4-Week Schedule
- ✓ Standard Student Portal Access

Ideal for first-time interns

MOST POPULAR ★

Standard Track

Project Building & Placement Ready

₹499 / all-inclusive

- ✓ 3 Comprehensive Industry Tasks
- ✓ Official Offer Letter + Certificate
- ✓ Modular Code Review & Feedback
- ✓ Study Guides & GitHub Templates
- ✓ Priority WhatsApp Support

Best for Engineering & MCA Students

CAREER BOOST 🚀

Pro Master Track

Full Mentorship & Placement LOR

₹999 / all-inclusive

- ✓ Complete Capstone + 3 Core Tasks
- ✓ **Signed LOR from Founder Krishna Singh**
- ✓ 1-on-1 Code Review & Mentorship
- ✓ LinkedIn Recommendation & Endorsement
- ✓ Fast-Track Priority Issuance

Guaranteed Recruiter Edge

How To Apply In 3 Simple Steps:

1. **Submit Online Application**
   Visit the portal, select your domain, and submit your college profile.
2. **Get Portal Access & Task Brief**
   Our admissions team issues your user ID, password, and task starter kit.
3. **Build, Submit & Get Certified**
   Complete projects at your own pace and receive your verified credentials!
